Product Information

StemBeads® Qkine NT-3 is a patented growth factor supplement designed to reduce feeding times and improve the quality of NT-3 dependent cell cultures.

Please note: this product is in beta testing.

StemBeads® revolutionary controlled-release protein technology combined with Qkine high purity and bioactivity animal origin-free growth factors and cytokines stabilizes growth factor levels for increased cell culture consistency and reproducibility.

Alternative protein names

NTF3, HDNF, NGF-2, NGF2, NT 3, NT3, neurotrophin 3, Nerve growth factor 2, Neurotrophic factor

Product Size Wording

Order fulfilled by StemCultures

Molecular weight

27.3 kDa (dimer) 13.7 kDa (monomer)

Protein Uniprot number

High purity human NT-3 protein (Uniprot: P20783)

Species reactivity

- human
- species similarity:
- mouse - 100%
- rat - 100%
- bovine - 98%
- porcine - 100%

Product Information

- Micro-encapsulated high purity protein
- StemBeads® technology for controlled-release
- Lot-to-lot consistency in bioactivity

Reconstitution instructions

- Liquid
